Immigration Move Gets Underway To Atia in June

Goal of 5,000 Britons Coming Per Month Set

LONDON, Feb. 26 (CP)—A. J. Hoake, minister of economic affairs in the Alberta government, said yesterday that the province plans to begin movement of emigrants from Britain by sea or air in June with a goal of 5,000 emigrants for the first year of operation. If the economic development of the province permitted, Alberta would be able to absorb 400,000 emigrants in 10 years.

(Estimates on the number of immigrants to come to Canada from England under the provincial government's immigration policy were "purely speculation," Premier Ernest Manning told the legislative assembly here Wednesday.

(He was answering a question from J. Percy Page (Ind. Edm.) who referred to newspaper stories that 40,000 British immigrants would be coming to Alberta.

Liberal Chief Attacks Plan

Action of the Alberta government in connection with the proposed British immigration scheme is "typical of the arrogant attitude which has recently marked practically every public action of the cabinet and its members," Harper (Lib. Edm.) told the legislative assembly charged Wednesday.

"I am very interested in all these decisions being made in regard to immigration into the province without the legislature being consulted or even asked," he said.

"The plan looks to use like typical Social Credit day-dreaming," he said in reference to the figures released on Tuesday that 40,000 immigrants could be expected within 10 years. This would mean the transportation across the ocean and across Canada of 40,000 a year.

Would Explain Austerity to U.S.

VANCOUVER, Feb. 26 (CP)—The Vancouver Board of Trade will seek federal and provincial government aid to explain Canada's austerity regulations in the United States.

Howard T. Mitchell, board president, said there is a widespread misunderstanding in the United States as to the availability and the price of goods in Canada and valuable foreign trade will be lost unless efforts are made to correct the situation.

The board has secured Federal Trade Minister Leslie Regan, and provincial Trade Minister Leslie Regan, for discussion, seeking co-operation.

Some Americans believe the U.S. goods are being discriminated in Canada, that accommodation and food are too high, and that the U.S. is necessary for tourists to bring in supplies to ensure adequate diet.

He advocated an "extraordinary publicity" effort to correct the situation.

Inventor Worried, Commits Suicide

LONDON, Feb. 26 (CP)—Gordon Nunnally, 54-year-old inventor, whose plan to build aeroplanes from giant blocks of artificial ice was seriously considered last night during the trial of a model built because he was working about a secret project, today was found dead in his home. The jury returned a verdict of manslaughter. Police's balance of mind was disturbed.

Coal Car Shortage Causes Men Lay-Off

SEATTLE, Feb. 26 (CP)—Some 3,000 men have been laid off in Nova Scotia because of a shortage of coal cars. The shortage of coal cars has been the cause in delaying the return to normal production since the strike last June.

Have You Mailed Those Letters?

Has your wife ever asked you that question upon your arrival home after work? Has she said to you, "I haven't heard from you for weeks?" Has she said to you, "I haven't heard from you for weeks?" Has she said to you, "I haven't heard from you for weeks?"

Dechene Says Govt. Men Await Call From Moscow

By Dick Jackson
Edmonton Bulletin Bureau
OTTAWA, Feb. 26.—Because of the "danger" involved, Joseph Dechene, Liberal MP for Athabasca today refused to enlarge on charges he made yesterday in the Commons that "Some" members of the government staff were preparing a program of "sabotage" on expected call for action from Russia.

Mr. Dechene said he knew addresses in Ottawa where government employees met with other "Communists and fellow-travelers" to weave their plots, but declined to disclose them.

On his charges, he insisted they were all "quite true" and indicated he would go no further with them for the present because of his concern about possible Communist reprisals.

On the floor of the house, he said, he had been told by a 20-year-old Red spy investigation, when he said:

"I do not know about now, but a few weeks ago meetings of Communist, fellow-travelers and other believers in Russian policy, some of them members of the Canadian army and navy, were being held in Ottawa, preparing to sabotage in case a call should come from overseas if the occasion arose."

To Start Probe Indian Affairs

By Dick Jackson
Edmonton Bulletin Bureau
OTTAWA, Ont., Feb. 26.—Investigation of appointments in the Indian and resources department and purported irregularities in the handling of Indian affairs in the Lesser Slave Lake district under Tuesday, Don Brown, Liberal MP for the district, said today that he had written to the Minister of Indian Affairs, C. D. Howe, to start a probe into the handling of Indian affairs in the Lesser Slave Lake district.

Witnesses being called are those involved in the Pratt appointment to the Indian Affairs Director's office, and Personnel Director Joseph A. of the mines department under the Veterans' Affairs Minister, C. D. Howe.

Decision was reached, he reported, at a meeting of conference of the Indian Affairs Department.

Witnesses being called are those involved in the Pratt appointment to the Indian Affairs Director's office, and Personnel Director Joseph A. of the mines department under the Veterans' Affairs Minister, C. D. Howe.

Speed Up Cashing Of War Savings

By Dick Jackson
Edmonton Bulletin Bureau
OTTAWA, Feb. 26.—Finance Minister Abbott has said that the government is making every effort to speed up the cashing of war savings certificates at any branch bank in the country.

For carrying charge of five cents, the banks will handle maturing certificates, credited to the holders' accounts. Persons lacking bank accounts still will have to accept payment directly from Ottawa, but under Mr. Dechene's proposal Mr. Abbott has agreed to speed up the frequently slow redemption process.

"I didn't get all I asked for," said Mr. Dechene, "but you can't ask a man out for anything."

Bank Messenger Robbed of \$6,000

VANCOUVER, Feb. 26 (CP)—A woman messenger, on route to a bank, was robbed of \$6,000 including \$1,800 in cash, the balance in cheques, today in the downtown waterfront district.

Audrey Bliskie, the messenger, told police a man grabbed a sack of money from her and drove off in a car driven by a confederate.

She was taking the money to the bank to cash a cheque for the company office, where she is employed.

"There may have been a third man in the car," she reported to police.

Jet Plane Sets Record Closed Circuit Course

LONDON, Feb. 26 (AP)—The jet plane, Armstrong Aircraft company said, a jet-propelled super-jet, set a new record for a closed circuit of 500,000 feet in an hour for the 100-metre closed circuit course at Winchester today.

The plane, called the Attacker, was piloted by St. J. Lifford, a former pilot, and set a record for such a course, 540,000 miles an hour, in 1947.

It was flown by St. J. Lifford, a former pilot, and set a record for such a course, 540,000 miles an hour, in 1947.

Strikers Close 14 Yorkshire Mines

DONCASTER, England, Feb. 26 (CP)—A 14-day strike closed 14 Yorkshire coal mines yesterday, the Yorkshire Coalfield Association said. An unauthorized strike for higher wages by the strikers threw about 12,000 miners out of work. Blast-furnace blast coal from the face of the seam.

Last of Overseas Brides Sail Today

SOUTHAMPTON, England, Feb. 26 (CP)—The last of the 12,000 brides of Canadian soldiers to be transported to the British Isles sailed today for home. Yesterday heeded the liner Aquitania, which is due to sail today for Halifax.

Palestine Mandate Bill Is Introduced

LONDON, Feb. 26 (AP)—The Palestine Mandate Bill, introduced today in the House of Commons, will be debated later.

Extension At Airport Traffic Increase Forcing Addition Administration Bldg.

Traffic through Edmonton airport has increased so much that the facilities of the airport administration building, and plans are being drawn for an extension of the building to be constructed this year, Mayor Harry Ainlay announced Thursday.

Recently reports were received from the Dominion newspaper, The Canadian Press, that the airport extension, which will cost \$1,000,000, will be completed by the end of the year. The extension will add 100,000 square feet of space to the existing 100,000 square feet of space. The extension will also add 100,000 square feet of space to the existing 100,000 square feet of space.

Colder Wave On the Way

Edmontonians would be well-advised to put away their winter coats for a while yet. Cold air-masses that swept across the province last week and are expected to bring a cold wave to the city, are expected to bring a cold wave to the city, are expected to bring a cold wave to the city.

Ice Gambling Probe Asked

DETROIT, Feb. 26 (AP)—Gov. Kim Riger today asked Detroit Police Commissioner Harry S. To make a "full investigation" of a reported "ice gambling" racket in Detroit. The investigation is being conducted by the Detroit Police Department.

TRAIN HITS CAB, 2 YOUNGSTERS HURT

Five kiddies had a narrow escape from serious injury today when a cab in which they were riding was struck by a freight locomotive at 87 street and 127 avenue.

Two of the youngsters, Richard Lamoureux, six, of 9013 125 avenue, and Joseph Olekni, nine, of 8614 125 avenue, are in hospital recovering from minor injuries. Three others escaped without injury.

The cab, a 1947 model, was struck by the train as it was crossing the tracks. The train was moving slowly and struck the rear of the vehicle.

Taylor In Favor Public Ownership

NEW YORK, Feb. 26 (AP)—Senator Glen H. Taylor (Dem.-N.Y.) today said he was in favor of public ownership of railroads and public utilities.

"A certain amount of socialization can be very beneficial to private enterprise," he said.

LIVESTOCK PRODUCERS CONCERNED Policy on Farm Prices Said Somewhat Obscure

Return of the national economy to a peacetime basis, and the return of livestock prices to a level of stability at the present time, is a matter of concern to livestock producers. The return of the national economy to a peacetime basis, and the return of livestock prices to a level of stability at the present time, is a matter of concern to livestock producers.

Train Whistles' Varying Effects

Some foot-notes on the subject of new fangled trains.

"I wish all trains had horns on them," says O. Russell. "I live too close for comfort and they are screaming from their innards all hours of the day and night and my dog scares them."

The other side from Louise C. Lambert: "I agree with you about the whistle," says she. "The very sound of that wild, untrammelled shriek cutting through the air

of materials. They were the only ones to put their objections in action and this was what I noticed."

This is hardly a satisfactory answer from a magazine which has been called "an interpretation" of the mood and sentiment of the public when it serves their editorial line.

And a thoughtful note from E. J. Peck Philpott about the occasion of the coming here of the editor, Mr. Philpott, greeted

never fails to raise the desire to go along with it, rushing through the night to new scenes and adventures."

Bertha Bird agrees, too, that the old-time friendships of travelers (or fellow-sufferers) is getting worse.

"Just look how cunningly our old friend Nat Gubbins goes about the business of polishing off people and ideas he doesn't like," writes Mr. Philpott. "He is

Port Arthur and never spoke to a soul," she writes. "So give me the old trains and sleepers, the

Wnoo-Wnoo in the middle of the night, the farmer saying 'there goes the train' and giving everyone confidence, I would willingly go back to the good old Colonist cars, for a trip, cook my own food and hand the tea-pot around to all who want a cup. That was the way to find new friends."

I am properly taken to task by

you simply can't just bash the door open and stand in the aperture, a home-made bomb in each hand."

Can't altogether agree. Some men work better with bombs than they do with syringes.

The Critics

An interesting letter from

Mrs. L. C. Thomson of Powell River for not knowing the origin of "Whycogomah," the name of the new sleeping car discussed here.

"Unpronounceable?" Mrs. T. demands "Just try it the way it spelled—Why-cog-oh-man with the emphasis, if any, on the 'cog'. Its origin? Not at all mysterious to a Bluenose. At the end of the

Mrs. R. A. Harlow, of Prince George, on the CBC Wednesday Night Program.

"The same thing, is taklo in place in radio as is found in all other branches of the arts in Canada. A terrible, degrading snobishness that is killing everything fine and spontaneous in Canadian cultural expression," Mrs. H. writes.

the Miami Indians gave it the name which means, 'The Head of the Waters'.²

Time's Reply

Herb Huffman, the sage of *Time* magazine, has a communication from the editors of *Time* Magazine in Defence of the criticism here of Tome's conduct. He is the abettor of ammunition to China.

"In looking into the situation carefully we found that there were no Chinese agents in the picture besides those raised by Communists," the *Time* spokesmen said. "The Chinese did not want to be associated with Communism, but they were not allowed to be honest, or fair, and that these objections were raised by a group who past judgement on 'what is best for the average person to hear and read,' files MacLaine, of Chilliwick, New Hampshire.

"The fact of the fact that we must always pay regular prices for the many bad movies Hollywood makes is a fact that they should be allowed to charge such exorbitant prices for the occasional good ones that come along."

"We stand the motion on that," said MacLaine.

"And finally, I have a stack of several letters, which letters called 'The Luck of London?' I think

any appreciable degree. The Communists, their fellow travelers and sympathizers were the only ones to picket against the shipment and prevent the sailing

anybody who wastes time in scribbling out this nonsense should have his head examined. Please don't send any more this way. . .

tion

And so it goes on, —

Today we howl to high heaven for a law that will drop that

The law sought against the "new look" by this rebellious youth of England is not in the nature of a summary law at all, but an attempt to alter by legislation that thing which is essential to the most notable feature of our age, namely, our

effort effort is among those things which we have singled out as a day for viewing with alarm. It is because it is outrageously costly in itself, but because it is part of a tendency to which almost everybody has begun to

scribe—the desperately dan-
gerous tendency to lean on acts
of Congress for relief from
one's own shortcomings and ineffi-
ciencies.

Once upon a time it was
thought that a government should
be run by a national committee
of a people without regulating
its lives and acting as a crutch
to its citizens.

Once upon a time, for instance,
people wanted a certain article

of legislation. Therefore, they
made a law. But the law was
not as we naturally are. It can
work no miracles. It cannot
change us. It can neither alter
our inclinations nor our dispo-
sitions nor smuggle us into the
kingdom of Heaven.

Now, Congress of parliament, by
its legislative enactments, cre-
ates individuals with energy,
initiative, enterprise and imagi-
nation. It creates men and in-
stitutions capable of working out

Today's Text

Yes, though I walk through the valley of the shadow of death, I will fear no evil: for thou art with me; thy rod and thy staff they comfort me.—

Once upon a time it was

Yes, though I walk through
the valley of the shadow of
death, I will fear no evil: for
thou art with me; thy rod and
thy staff they comfort me.—
—Psalm 138.

Nor can acts of parliament, by any legislative enchantment, endue individuals with energy, initiative, enterprise and imagination which are the only instruments capable of working out

Govt. Immigration Policies Are Played

Directed Against French Survival, Chalaut Tells Quebec House

QUEBEC, Feb. 26.—(CP)—Hene Chalaut, the Quebec legislative assembly's nationalist member, yesterday attacked federal immigration policies which he termed "racist and imperialist" and the federal Liberal party which he called "hypocritical, clever and dangerous."

He charged that present immigration was "directed against French survival" in Canada and against the federal government of seeking the "death and disappearance" of Canada's French element.

There was no comment from other members on the speech for which the occasion was a motion Mr. Chalaut had presented calling for production of correspondence between Quebec and federal authorities on immigration in Quebec County, where displaced Polish girls are employed in textile mills.

SCORES ST. LAURENT
He called St. Louis St. Laurent, external affairs minister, "second Laurent" and "another pseudo-Canadian" and said Mr. St. Laurent sought "constantly to be performed by a French-Canadian, for the sake of getting the leadership of his country."

Emphasis on immigration from the British Isles at present was due, Mr. Chalaut said, to 1941 census indication that Canada's French population at its peak would be 1,000,000 more than it was in 1931.

"It is our duty to increase our population by natural means, if others want to employ contrived methods it is their affair. If they object to our method, let them go the same. Instead of accepting themselves to take dogs, let them raise children."

SO SAY VISITORS TO ST. JAMES

Waited Ages to Get In But Had "Time of Life"

By RUSSELL LANDSTON
LONDON, Feb. 26.—(AP)—A study housewife on a crowded Piccadilly bus pointed a mittened hand at the gray turrets of St. James' Palace and confided to her neighbor:

"I had the time of my life in there. Waited ages to get in."

Most of the women, taken in chiefly at a shilling (20 cents), had been given to a charity chosen by Princess Elizabeth and Prince Philip. The only deductions will be to pay for the running of the show.

Average daily attendance has been between 2,500 and 3,500. On the peak day 4,500 were admitted. Each visitor spends about an hour making the rounds.

Lines three and four blocks long are not unusual. Those in line often have waited four to six hours in rain or cold, carrying blankets or extra coats and snacks of sandwiches, cookies and fruit.

Spinelli Ousted From Ring Guild

NEW YORK, Feb. 26.—(AP)—Nino Spinelli, manager of the late Sam Baroudi, yesterday resigned from the Boxing Managers Guild at the request of the organization. He said he was retiring from the fight business.

Spinelli was the first member ousted from the guild although several applications for membership have been turned down.

President Charles Johnson of the guild called the meeting to investigate reported actions of Spinelli in Chicago where Baroudi died after a fight with Ezzard Charles last Friday.

The managers heard Spinelli's own story of why he had attempted to leave Chicago with the fighter's purse while he was dying in a hospital.

Spinelli said he had a paper from Baroudi's father, empowering him to collect the purse. He said he had left his son, Frank, in Chicago with orders to report any change in Baroudi's condition, when he left for the airport Saturday morning.

The manager insisted he had notified of her son's serious condition. He also claimed he left \$100 with Jimmy Brooks, described as Baroudi's friend, to cover incidental expenses.

Brother, Sister Leap Year Children

GUELPH, Ont., Feb. 26.—(CP)—Ruth Leap Year-born, Shirley Lloyd, 30, and her brother, Harry Lloyd, 32, were celebrating their fifth and fourth birthdays respectively, Feb. 29.

Benes Might Flee Country

By RICHARD CLARK
PRAGUE, Feb. 26.—(RUP)—President Eduard Benes bowed to Communist demands under duress to avoid bloodshed, a high official said today, adding that the president might resign or flee the country to make his position clear.

The official saw Benes yesterday as the Communist coup was being completed. He gave a view of the president going in to terrific pressure because he saw no other course, and still determined to dissipate any impression that he consented freely to the Communist solution of the crisis.

Benes was reported seriously ill. The official who saw him said the strain of incessant work and dispute for three days had broken down his reserve strength and health.

TO REMAIN QUIET
The official said it was his impression that Benes would remain quiet for another day or two, and then would make some statement or take some action to make clear to the world how he felt.

Another possible course seen by the official was that Benes might undertake to maintain his influence among the voters with the idea of trying to reverse the Communist victory at the ballot box.

Another possible course seen by the official was that Benes might undertake to maintain his influence among the voters with the idea of trying to reverse the Communist victory at the ballot box.

Woodward's Men's Footwear Section, Main Floor

See Red Assault On Mukden Near

NANKING, Feb. 26.—(AP)—The mounting force of Chinese Communist assault near Mukden was regarded today as probably opening a direct attack on that Manchurian metropolis.

Dispatches from Mukden said the battle for the suburbs of Simin, 10 miles west of Mukden, reached a high pitch with government reserve air power thrown into the fight. Simin proper fell to the Reds yesterday.

Simin was one of three main defense points in the weakening government-held area of Manchuria. Chiang Kai-shek's commanders divided their armies among Mukden, Simin and Tieling. Industrial railway city 40 miles northwest of Mukden.

Probe Diverting Oil To Black Market

NEW YORK, Feb. 26.—(AP)—John Chidichimo, 35, an oil truck driver, was charged yesterday with diverting oil to the black market. He was charged with diverting oil to the black market. He was charged with diverting oil to the black market.

'Cowboy' Gunmen Stage Terror Ride

CHICAGO, Feb. 26.—(AP)—Two gunmen in cowboy boots yesterday beat and disarmed a policeman, took him and a young couple on a terror ride through the city.

Bakers 'Suggest' Price for Bread

'Very Definite' Suggestions Made To Retailers, Probe Informed

By John LeBlanc

OTTAWA, Feb. 26.—(CP)—Retailers receive "very definite" suggestions from General Bakeries, Ltd., on their selling price of the company's bread and barely deviate from that line, an executive of the firm told the common price committee yesterday.

However, James M. MacDonald of Toronto, company secretary-treasurer, denied a suggestion from Health Minister Martin, committee chairman, that General Bakeries take disciplinary action against recalcitrant retailers by shutting off their supply.

Either Federal Aid Or Revenue

REGINA, Feb. 26.—(CP)—Premier T. C. Douglas told the legislature yesterday that most provincial and municipal governments no longer could adequately finance health, welfare and education and needed either federal contributions or new sources of revenue such as indirect taxation.

"No two provinces should be allowed to stand in the way of the federal government and seven provinces making agreements for the benefit of all," he said, during debate on a resolution introduced by Mrs. Beatrice Trew (C.P., Maple Creek) calling for a Dominion-provincial conference to implement the 1945 federal proposals.

Even if Ontario and Quebec felt they were sufficiently wealthy that they did not need federal assistance for social services, the federal government should be prepared to assist the seven provinces which had surrendered income, corporation and inheritance taxes to the federal government.

OTHER MEETINGS

Mr. MacDonald also told the committee he understood similar meetings had been held by bakers in many cities at about the time bread controls and flour subsidies were being removed. He said the Toronto session had ended in complete disagreement.

Mr. MacDonald said his company had proposed a four-cent increase in price. Others only wanted to go up three. By Sept. 18, some bakers put a three-cent increase into effect, he said, and General Bakeries followed suit.

He said that even if the subsidy on flour had remained, his company would have wanted an increase in its price to make up for other higher costs. He indicated this would have been about two cents a loaf.

Mr. MacDonald demurred at providing the committee with a full statement on the company's operations for 1947 up to the time of

Well at Perth, Ont., held dog 37. From 35 pounds, Nipper starved days until Stewart Moodie, above, to 17 pounds. He is said to have went down on rope to rescue him, lived on water.

MOTORISTS AT COAST FACE FUEL FAMINE

VANCOUVER, Feb. 26.—(CP)—A motor fuel famine loomed here today as gasoline supplies dropped 60 per cent. Sixty-eight stations handling Imperial and Home Oil gas were either out of supplies or expected to be by Saturday.

Many stations displayed "Sorry no gas" signs. They had no prospect of delivery until next week, when March quotas will be available. Some dealers were rationing customers to \$1 worth of fuel.

The supply shortage developed when oil companies limited deliveries, charging a recent government price boost did not meet operation costs.

Report Civil War Hangs Over Yemen

CADIZ, Feb. 26.—(AP)—Cables indicated today that civil war threatens Yemen, where the Imam (ruler) Yehia was reported killed during a coup Feb. 17.

A message received in Cadiz from Suif El Islam, eldest son of Yehia, said the wives of the dead ruler and his sons were being besieged in their homes. Prince Ahmed said the new regime, headed by Abdulrahman bin Ahmed El Wazir, as Imam, had told the people Yehia died of natural causes.

When they learned he had been slain, Ahmed said, a revolt started.

Atomic By-Product Used to Cause Changes in Wheat

WINNIPEG, Feb. 26.—(CP)—Radiosynthetic phosphorus, a by-product of atomic research, has been used to cause hereditary changes in wheat plants, it was reported at a meeting yesterday of the associate committee of plant breeding.

Dr. T. A. Aranson of the University of Saskatchewan said the wheat plant fed upon the radioactive phosphorus as upon ordinary phosphorus, and in this way he was able to introduce the radioactive material directly into the germ cell. This exploded miniature atomic bombs inside the cells, causing damage in hereditary materials of the wheat plant.

No Disunity

REGINA, Feb. 26.—(CP)—Notion Clarke, Saskatchewan leader of the Labour Progressive party, said last night his party had many differences with the CCF, but those differences could not be allowed to cause disunity among the people.

Ex-President Dies

MONTEVIDEO, Uruguay, Feb. 26.—(AP)—Former President Gen. Alfredo Baldomir, 65, died yesterday. He became president in 1930, succeeding his brother-in-law, Gabriel Terra, and carried out a pro-Ally foreign policy.

Britain Faces Problem Of Czech Recognition

By Robert Hewett

LONDON, Feb. 26.—(AP)—The foreign office said today that Britain will have to consider the question of recognizing the new government of Czechoslovakia.

A spokesman said the Communists forced the government to recognize Czechoslovakia, using "undemocratic means."

Britain has been in consultation with France on the Prague crisis. Sources say France may be the next small country to feel the squeeze of Communist power.

Others think Austria, France and Italy may be clamped in the Communist vise. There seems general agreement that the coup in Czechoslovakia has forged perhaps the most vital link in a Russian chain intended to block the Marshall Plan.

ELECTIONS COMING

In Finland and Italy, as in Czechoslovakia, elections are coming up soon and the Communists want to win them.

Finland, like Czechoslovakia, is ruled by a coalition government. Her government has acknowledged that the country must remain on the best terms with Russia.

Italy and France have barred Communists from their cabinets and the best efforts of the leftists thus far by hard-bidding, paralyzing strikes, have failed to bring Premier Robert Schuman in France and Premier Alcide De Gasperi in Italy. But the pressure never has been relaxed.

IN DEFENCE NETWORK

London diplomats predicted that Czechoslovakia now will be drawn more tightly into the interlocking network of mutual defence, friendship and trade pacts woven since World War II.

London first denounced the Marshall Aid-Europe program.

Norway to Limit "Dollar" Purchases

OSLO, Feb. 26.—(AP)—Gunnar Jahn, director of the bank of Norway, said yesterday it would be necessary to limit purchases from dollar areas in the future. Jahn said only \$12,000,000 remains of the credit granted Norway by the Export-Import bank in Washington.

Publisher Dies

EASTON, Pa., Feb. 26.—(CP)—Les G. Carpenter, 43, who began his newspaper career in 1912 at 12 in Bridgetown, N.S., died Tuesday after collapsing in his office.

Carpenter was owner and publisher of the Bangor (Pa.) Daily News.

ST. LOUIS BLUES—AND IN CHURCH

PLYMOUTH, Mass., Feb. 26.—(AP)—Plymouth was a George Cowdry ran to a church here because he heard the bells playing.

He heard the carillon playing "The St. Louis Blues."

Policeman Cowdry arrested Church Organist Edward Ward, 42, who later was given a year's probation for intoxication.

Suspend Imports

KINGSTON, Jamaica, Feb. 26.—(CP)—The government yesterday suspended temporarily import licences from all dollar countries except on foodstuffs, drugs and emergency imports.

Just lie back in one of the truly luxurious chairs on T.C.A.'s spacious "North Star" sky liners and in a few hours you are in Britain or Ireland, comfortably and economically.

SERVING CANADIANS THROUGH CHEMISTRY

Chemistry?

...YOU'RE ASKING ME?

WHILE CHEMISTRY may seem to be remote, it is actually at your elbow every day, a science of unlimited practical uses.

Wearing apparel is worn from chemically-created yarns. Chemical fertilizers stimulate plant growth; insecticides check pest destruction. The water we drink is purified by chlorine.

Chemistry plays a vital part in modern medicine and in the treatment of steel. Salt, soap, paint, nylon, "Cellophane" and plastics in all their colorful applications, are chemical products.

Yes, we live in a chemical world... with the C-I-L oval trade-mark as symbol of an organization devoted to serving Canadians through chemistry.

For instance: NYLON

CHEMISTRY never stands still. First it creates, then it improves... the new nylon yarns being made in plants here and there, but from nylon yarn—made by Canadian Industries Limited—Head Office, 1155 Beaver Hall Hill, Montreal.

"HON'T LIKE IT AT ALL," was the comment of Jim MacDonald, service station operator at 102nd Avenue and 96 street. Mr. MacDonald said he had eaten plenty of margarine while he served with the United States army in the vicinity of Whitehorse during the war. His chief complaint, he said, was that "it sticks to the roof of the mouth."

—Photos by Hurd

Edmontonians Divided on Margarine Question

"AS LONG AS BUTTER is available, I won't be buying any margarine." This was the opinion of Mrs. A. Lindsay of 1610 10th street when asked for her opinion on the margarine question. Mrs. Lindsay said she had never used the product herself, though reports of her husband who had tried it over were not favorable. "I much prefer butter," she said.

"I DON'T CARE one way or the other" was the response of A. Funk of 1658 7th Avenue. "I've never tasted it myself," said Mr. Funk, "but I've had a lot of people tell me that they like margarine, and on the other hand I've had a lot more tell me that they have no use for it." Mr. Funk was a lot more concerned about the "good buy" he had just picked up in a 1928 model car than he was about the margarine issue.

"IT WOULD BE A GOOD idea, though perhaps not the smartest thing for an agricultural country to do," This was the reaction of Miss Ruth Krull, an airline passenger agent, when queried by The Edmonton Bulletin in a survey of opinions on the advisability of permitting margarine to be made and sold in Canada. Admitting that she had never tasted the product, Miss Krull considered the price attractive.

City May Install Parking Meters On Jasper Ave.

Installation on Trial, Company Bears Cost

Parking meters will be installed in Edmonton's downtown streets this spring if a recommendation of the utilities committee is accepted by city council.

The committee decided Wednesday to recommend meters be installed on a trial basis for one year, installation to be made at the expense of the company supplying the meters. It was recommended also that if meters did not meet with public approval the company remove them without cost to the city.

The proposed meter rate will be one cent for 15 minutes and five cents an hour.

Fourteen companies were interested in submitting to council a report on the number of meters to be installed, and the locations in the shopping area, where they would be placed.

The suggested area for the meters is Jasper Avenue from 99 street to 104 street, and other avenues and streets in this area. While no definite figure has been determined it is expected approximately 1,000 meters will be installed.

When this question came before city council last year opposition to the meters was expressed by the Alberta Motor Association, the Property Owners Association, and the Edmonton Retail Merchants Association. The Edmonton Chamber of Commerce approved the installation.

Cattlemen Hold Annual Banquet

More than 200 cattle breeders from many parts of Canada gathered at the Macdonald hotel Wednesday night for a joint banquet.

The cattle men are in the city attending annual conventions of the various cattle breeding associations. Highlight of the program was a talk and showing of films by Harry Hargrave, Sheriff Curlew, superintendent of Dominion experimental station there.

The dinner was sponsored by the National Film Board. Charles Matthews, Calgary, chairman of the Joint Cattle and Horse Shows Association, presided at the dinner. The dinner was sponsored by the Canadian Aberdeen Angus, Canadian Hereford and Canadian Shorthorn Associations.

Blind Drive Campaign Officials Optimistic

Officials of the Blind Campaign, Wednesday morning, were optimistic about reaching their objective of \$100,000, but feared that the canvases in some sections would extend into next week.

The delay, they say, is due to the large number of callbacks they are asked to make.

Reports from 200 canvassers operating in the business zone show coverage is about two-thirds complete.

Fifty canvassers in the industrial commercial division are making house-to-house canvases at a maximum rate this week to make up for time lost during last week's cold spell.

The special names division is the nearest to having completed its canvases and is favorably approaching its objective.

Edmonton Bulletin

ESTABLISHED 1880 DECEMBER 6, 1880

Page 13

Weed Controls Outlined Before Farmers' Session

Value of weed control to the farmer was stressed by H. E. Wood, Manitoba department of agriculture, in his address to more than 100 persons Wednesday afternoon.

He was speaking at the fifth annual agricultural short course being held in the Masonic temple.

The effect of weed control over a period of years was his main point. He also described the developments of chemical weed control.

R. J. Whitehead, district agricultural officer of Edmonton, was the only other speaker of the afternoon session. He stressed the importance of "saving the soil," and clean crops.

Bruce Martin, agricultural engineer, department of agriculture, and J. M. Fontaine, district agricultural officer, were speakers at the morning session Wednesday.

Mr. Martin told of the rural electrification programs being carried out in the province and mentioned the great value to the farmer.

Blames Liberals For Living Costs

Blame for the high cost of living in Canada was placed on the shoulders of the Liberal government in Ottawa by Edmund Taylor, St. Boniface, in the Throne Speech debate in the Alberta legislature.

Removal of subsidies, hidden taxes and the money monopolists were the factors blamed by Mr. Taylor for the sharp increase in the cost of living index.

He said Harper Brown, Alberta's Liberal leader, had said in a Calgary address that better results could be built with increased money and said this indicated that the new leader had learned well the lesson of previous Liberal administrations in passing on a life-monopoly burden of debt.

It would be a serious error, he suggested, for the government of this province to permit the export of natural gas. What was needed here was expansion in the industrial field and this could not be accomplished by allowing Alberta's natural resources to go to other provinces.

Further similar tactics.

PLEASANT MANNER

The very pleasant stage manner of Miss Petrie added much to the enjoyment of the recital. Her fine, sweet voice, with just the right amount of tremor added to skillful technique, made her performance a breath control was desirable in an excellent vehicle for the sympathetic interpretation of all that she sings.

REDS.

Dean to Retire

THURSDAY, Feb. 26.—(CP) John Deane, 73, dean of the University of Alberta law school for 25 years, will retire from his administrative duties March 2.

Yolanda Petrie sang the Faust aria with great technical skill, and with all the volume she could command, though the loud passages were not harsh. Whether or not she has the sustained power required to compete with the best prima donnas on the opera stage, she was able to do justice to this difficult aria on the concert stage with both accurate power and dramatic portability.

DELIGHTFUL SONGS

Also included were two delightful songs by Debussy and a more sanguine song by Granados. The opening group of classics by Palestrina.

CCF Leader Given Chilly Reception

A chilly, like the draft from a quickfreezer with an open door, descended on the Alberta Independent when James H. Rogers, C.C.F. leader, asked their attitude on the request called upon. A. H. Bower, Social Credit board chairman, gave him the face as he was asked if he and the board, were going to seek a business then pull the "hole in after him."

This was the second successive year that Mr. Rogers has been allowed to finish his Throne Speech address without interruption.

Hill Urges Canada Adopt New Policy

An extensive immigration program for Canada was urged Wednesday by C. Bruce Hill, president of the Canadian Chamber of Commerce.

Mr. Hill was addressing a luncheon meeting of the Edmonton Chamber of Commerce in the Macdonald Hotel. He is currently on a national tour and arrived in Edmonton from the Pacific coast.

Canada, according to Mr. Hill, has the greatest reservoir of resources anywhere in the world, and yet we have less than one-half of one per cent of the world's population. "We cannot," he said, "hold the frontier large."

However, we must develop it for ourselves and for the world at large.
